GS-CG 20K / 30K

Power Storage Charging Station - 20 - 30KW

Storage-backed EV charging for Nigerian and Ghanaian sites.

SPECIFICATIONS

Battery: LiFePO4 180V

Capacity: 45 / 60 kWh

Charging: 7KW per gun

Output: 120/220VAC 32A

Charge Rate: 0.5C

Cycle Life: 5000 times

VARIANTS

GS-CG 20K - 20KW - 45 kWh

7KW per charging gun, 0.5C rate.

GS-CG 30K - 30KW - 60 kWh

Peak-valley arbitrage, smart chip management.

BEST FOR

EV Charging, Malls, Fuel Stations, Communities

WHY IT WORKS IN GHANA

Stores cheap off-peak power and dispenses it during peak hours - eliminating long queues and grid strain. Smart Chip Management ensures peak-valley arbitrage savings automatically.
