GS-GP30kWh - 30KW output - 30 kWh

<=8h charge - cold storage, schools and telecom sites.

BEST FOR

Guest Houses, Cold Storage, Schools, Telecom Sites, Warehouses

WHY IT WORKS IN GHANA

Store the day's solar and run right through the night without a generator. Sized between the GP10K and the heavy-duty GP30K - ideal where energy capacity matters more than raw output.
